CW & CS models with Cooker Hoods

Weight 27 Kg

Minimum Clearance from the bottom of the unit to the top of the hob must be:
Gas 750mm
Electric 650mm

An easily accessible heat recovery cube protected by two removable EU3 filters. Two Lo-Carbon Energy Saving EC DC fans ensure long life (typically over double the life of AC motors) and lowest possible energy use. Fully insulated construction with built in condensation drain. Fitted with 125mm spigots. Specifically designed for new build homes with a high level of insulation. Lo-Carbon Sentinel Kinetic meets the latest requirements of the Building Regulations Document F 2010 for whole house system ventilation: System 4. Continuous mechanical supply and extract with heat recovery.
